COAST CLIPPINGS.

The new town of Crockett, Contra
Costa, Cal., is said to be quite lively.
Every county in Arizona will be re-
presented at the Denver Mining Ex-
position.
Owing to the fact that no naval ap-
propriation has been made, Vallejo and
the yard are very dull.
A ten-stamp quartz mill is to be
erected on the Chapman ledge, two
miles from Nevada City.

Mrs. Danchee, San Francisco, a pas-
senger on the Marysville stage, on
route to French Corral, dropped dead
at Empire ranch Tuesday.
At the Union drift mine, located at
Gibsonville, Sierra county, great en-
couragement has recently been met
with by the discovery of a back
channel which prospects very favor-
ably.

Deputy Marshal Dunlop started for
Los Angeles Monday from Los
Angeles, to serve 100 summonses on
the settlers there. These papers have
been issued in an ejectment suit
brought against the settlers by A. E.
Robinson.

Gentry & Carnahan, near North
Powder, Oregon, sheared 2,000 head
of sheep this spring, the clip averaging
eight and one-quarter pounds per
head. Eight thoroughbred bucks
sheared an average of twenty-five
pounds each.

Some woodchoppers found the skele-
ton of a man in the vicinity of Buena
Vista, near Grass Valley last Monday.
A bottle of strychnine was found near
the remains, which are supposed to be
those of Christopher Staph, who dis-
appeared over a year ago.

Four horses, supposed to have had
the glanders, were killed at Peters,
San Joaquin county, a few days ago,
and their carcasses burned. A veteri-
nary surgeon investigated the matter
and pronounced the disease not the
glanders at all, but the epizooty.

Two old miners claim to have dis-
covered gold in the Clackamas
county, Or., Cascade range, seven
miles east of Higland. They are
hard at work sinking on the ledge.
It is the belief of many that the
Cascade range up there is rich in pre-
cious metals, but they are at unusual
depths.

A short time ago the books of the
San Joaquin county officials were "ex-
perted," and several errors discovered.
Among them, Charles Grunsky, County
Auditor, was charged with being short
888 poll tax receipts, their face value
being \$2,609. Later the receipts were
found among other books, the "ex-
perts" having overlooked them.

A Carpentaria correspondent of the
Santa Barbara Press says: Orchardists
are quite blue at the prices paid at the
caney for fruit this season. A lead-
ing one says that every pound of apri-
cots he raised cost him two cents, and
that there is nothing left for profits.
Two or three years ago over 100 acres
of land was bought for the purpose of
raising the apricot—but the project is
abandoned, the present prices not war-
ranting any further outlay.

A tornado created quite a sensation
in Summer Lake valley, Lake county,
Oregon, last week, by destroying
fences, gardens and thousands of acres
of forest. Two clouds seemed to meet
and join forces near the summit of a
high peak in the mountains surround-
ing the lake. The hurricane was in
width about three or four hundred
yards, and swooped down the steep
mountain side with such awful force
as to lay prostrate upon the ground
every tree, brush and twig in its
course.

"Several of the employees of this
hotel are happy to say they have been
entirely cured of neuralgia, lumbago
and rheumatism by the use of St. John's
Balm," writes J. E. Shaw, Esq.,
prop'r Grand Union Hotel New York.

SAFE
KIDNEY LIVER
CURE

The Leading Scientists of To-day
agree that most diseases are caused by
disordered kidneys or liver. The discovery
of Warner's Safe Kidney and Liver Cure
marks a new era in the treatment of these dis-
eases. It is a POSITIVE remedy for all
diseases that cause pain in the lower part
of the body, for torpid liver, headache, jaun-
dice, distension, gravel, fever, acute malarial
fever and all difficulties of the kidneys, liver,
and urinary organs. It is an excellent and
safe remedy for females during pregnancy. It
will control menstruation, and is invaluable
for leucorrhoea or falling of the womb. As a
blood purifier it is unequalled, as it cures the
organ that makes the blood.
This remedy, which has done such wonders,
is put up in the LARGEST SIZE 4 BOTTLES
of any medicine on the market, and is sold
by druggists and dealers at \$1.25 per bot-
tle. For diabetes, inquire for WARNER'S
SAFE DIABETES CURE. It is a POSITIVE
remedy.

FRIDAY.....JULY 28, 1885

THE PUBLIC DEBT.

On July 1, 1885, the United States had an interest-bearing debt of \$31,762,761 77. The vaults at that time contained \$31,006,584 89. The total debt less cash in the Treasury was \$10,965,963 01. The population was 28,083,000. The debt per capita amounted to \$0.36 and the interest per capita to \$0.07. July 1, 1861, the interest-bearing debt was \$90,380,678 95. The Treasury contained \$2,862,212 92. The total debt less coin on hand was \$87,718,690 80. The population was 32,064,000. The debt per capita was \$2 74, and the interest per capita was \$0 16. August 31, 1865, this being the date at which the public debt reached its highest point, the interest-bearing debt was \$2,381,530,294 96. The Treasury contained \$88,218,955 18. The total debt less cash in the Treasury was \$2,756,481,571 43. The population at this date was 35,238,000. The debt per capita was \$78 25, and the interest per capita amounted to \$4 29. July 1, 1883, the total interest-bearing debt was \$1,463,810,400. The Treasury contained \$343,289,519 78. The population was 52,799,000. The debt per capita was \$31 72, and the interest per capita \$1 09. The monthly interest charged at the present time amounts to \$4,780,009 23. The war plunged the Nation heavily in debt, but a Republican Administration has been steadily, faithfully and honestly at work since 1865 paying it off. If let alone the debt will be paid up in a few years more. The foregoing is a showing which any political party might well feel proud of.

EDITORIAL NOTES.

A New York gentleman visiting in Carson, who is said to be a warm friend of President Arthur, tells the Appeal that "we out here, haven't an approximate idea of the cordial relations that exist between the President and Senator Jones." He says the overworked Senator's life is made nearly unbearable by the immense pressure that is daily being brought to bear upon him to "use his influence" with the President for every imaginable thing. If our Senator had used a little of his supposed influence with the administration in securing to us a daily mail service, so that the people we much need, he would have pleased a large portion of his constituency and not have shared the friend Arthur's fate.

The lovers of good literature, like comparing and contrasting, will be delighted to see the steady improvement of our Continent. Each number seems to excel the preceding one and one begins to wonder where the management will stop in its upward march. The time of issuing is weekly, and the price of the monthly numbers is not the least of its advantages over other periodicals.

Bureau Leader: Congressman Cassity furnished his country constituents with a few hundred Congressional reports this morning. They contained the interesting information how to cure the "pip." George will need this knowledge next November.

Hon. R. M. Daggett's new book will be ready for delivery early in September.

The GAZETTE's Democratic dark horse has caught on in Winnemucca.

Congress has adjourned until next Monday.

Gladstone informed Parliament yesterday that the Government had abandoned the hope of passing the Corrupt Practices bill this session.

Rev. Harvey Stearns, in an affair with a farmer named Jefferson, indicted a fatal wound with a club and has been lodged in jail at Fort Worth.

It is said that half the cotton crop and the greater portion of the wheat crop of lower Egypt will be lost, in consequence of neglected irrigation.

L. B. Tucker, of Grimes Landing, Cal., asphyxiated last night by cutting his throat. He had been blind for eight months. He is the third brother to commit self-murder.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN.

A Giant Powder Explosion.

CHICAGO, July 27. A terrific explosion of giant powder occurred shortly before 6 o'clock this evening in a stone quarry in the north-western outskirts of this city, about six miles away from the business center. The shock of the concussion was plainly felt all over the city, and the detonation must have been heard many miles. Extravagant rumors were soon in circulation, as to the damage and loss of life. The facts are that a workman went to the powder house, a wooden structure, containing it is said, 1,000 pounds of giant powder and 1,500 pounds of blasting powder. He took out a can, left the door open, and setting it on the ground, proceeded to open it with a cold chisel. The result was that a spark struck the can, which exploded, throwing the man about 30 feet and setting fire to his clothes. Sparks entered the powder house where some of the cans stood open, and caused a second explosion, which tore the building into fragments. People were knocked down many blocks away, and a large amount of window glass broken and plastering knocked off. Some houses several blocks away were unroofed. It is stated that a pane of glass nearly seven miles away was broken. No one was killed but a large number of people were more or less seriously injured.

Pennsylvania Politics.

PHILADELPHIA, July 27.

T. D. McKee, Chairman of the Independent Republican State Committee, in reply to T. V. Cooper, Chairman of the Republican State Committee, regarding the four suggestions for a party compromise made by the latter to the former committee on the 12th inst., says: "I am directed to say that this committee finds none of the four suggestions are methods by which an harmonious and honorable unity of the Republican voters of Pennsylvania could be obtained. All of them are inadequate to that end. The third suggestion, which alone may demand attention, has the fatal defect of not including the withdrawal of that 'stated' ticket which was made up many months ago and long in advance of the Harrisburg convention. This proposition, supposing it to have been sincerely put forward clearly shows you misconceive the causes of the independent Republican movement as well as its aims and purposes. Our object is the overthrow of the boss system and of the spoils system. We cannot agree to make an alliance or agree to a compromise that on its face threatens the very object of the movement in which we are engaged. This committee regrets that having considered it desirable to make overtures to Independent Republicans, you should have so far misapprehended the facts of the situation."

A Lively Hive.

NEW YORK, July 28.

A returned Mormon Bishop, with nine female converts, was seen on the street yesterday afternoon making for the west-bound train. The Bishop created a sensation by stating he had converted the women to his faith and ideas of matrimony and he would marry all of them as soon as they got to Salt Lake City, where the "people were more civilized."

Delaware Convention.

DOVER, Delaware, July 28.

The Republican State Convention met here yesterday. Albert Curry was nominated for Governor, by the chairman, and Washington Harris for Congress. The resolutions do not differ in any material point from other Republican State Conventions in its national declarations.

Enterprise in a Dry Goods Store.

LARAMIE CITY, Wyo., July 27.

Jesse Tannebaum, a dry goods clerk in the employ of J. Killner, was last arrested for the embezzlement of his employer's money. He was detected by means of marked money, \$35 of which was found on him when arrested. He admits to having stolen \$3,100 during his employment. He is in jail here.

An Absconding Clerk.

CHICAGO, July 28.

John Raper, a young Englishman, for years in the employ of Benjamin Allen & Co., jewelers on State street, has absconded with about \$3,000. He was chief book-keeper, and the firm trusted him implicitly. He has lost the sight of one eye. His stealing began when he seemed likely to lose the sight of the other. It is supposed he has gone to England, where his sister lives.

The Michigan Forest Fire.

EAST TOWNS, Mich., July 28.

Forest fires to the north-west and south are burning fiercely. Fields of grain, farm houses, fences and orchards together with immense tracts of cedar and pine are burning. The hemlock stands east of here are impassable, and no correct list of losses can be given, as accounts conflict. Dow's Camp on Hope creek, burned yesterday with sleighs and lumbering equipage. Reports received say that horses, cattle and other stock were burned, and the farmers deserting their homes. At 5

o'clock, P. M., a heavy thunder storm set in, lasting an hour, and will tend to check the fires. Fires above Ocoosa are threatening the town. To-day Kinkardall's place is reported entirely destroyed.

Robbed His Own Mother.

DENVER, Col., July 27.

Mrs. Gregory and her son, August, aged 18, recently arrived from New York. At one of the leading hotels here last night young Gregory visited his mother's room and abstracted from beneath her pillow \$4,800. The young man was arrested and the money recovered.

A Murderous Woman.

SPRINGFIELD, Mo., July 28.

A quarrel between two widows named Campbell and Roerke, living on Willow branch, in Barry county, culminated a few days ago in the former assaulting and killing the latter with a knife. Mrs. Campbell was arrested and lodged in jail.

FOREIGN.

Egypt's Trouble.

CONSTANTINOPLE, July 28.

A dispatch from Ismael says the British Admiral has declared he will not land troops unless in company with the French. De Lesseps, on hearing this, declared on oath to the notables that as long as he remained no French troops would be landed.

ALEXANDRIA, July 28.

The inflexible has gone to summon the Aboukir Forts to surrender and bombard them if they do not. The marines who recently arrived here have been ordered to Ismael.

Quimberg alone remains of the American squadron. Lord Charles Bessford acknowledges the immense services so generously rendered by the 130 American marines landed in Alexandria after the bombardment.

Very important seizures have been made of secret correspondence, prior to the bombardment, between the military party and the French officials. The correspondence was carried on through the agency of Swiss adventurers. "Minet" Strong, a supporter of Arabi Pasha, is now believed to be at the latter's camp.

LONDON, July 28.

A special dispatch from Paris fore-shadows the abandonment of the vote of credit in view of Turkish intervention. It is understood General Wolsey will not wait the arrival of the Turkish troops before pushing whatever advantage he may meantime acquire.

A PROPOSITION OF PEACE.

ALEXANDRIA, July 28.

The bombardment of Aboukir has been postponed. Heavy firing was heard in the direction of fort Aboukir at 2:40 P. M. Arabi Pasha has sent a train to the junction and an armed engine and tender were sent out to meet it. Two shots were exchanged.

An unconfirmed report was received at London that Arabi Pasha has proposed terms of peace. The conditions being a voluntary exile and retention with rank and pay of Colonel for himself and nine of his colleagues. That the Khedive had submitted the proposals to General Archibald Allison. It is believed this step has been taken at the instigation of the Sultan. The report caused a rise in Egyptian stocks.

LONDON, July 28, 3 P. M.

The Standard in an edition just issued says: No information with regard to Arabi Pasha's offer has been received by the government in Alexandria. There will be no cessation of military preparation, as it is thought Arabi's offer may be only to gain time.

A SILVER LINING.

LONDON, July 28.

Egyptian unified stock has risen four per cent. since last evening. Reports circulated on the Stock Exchange that Arabi Pasha has declared he will not resist the Turkish troops if they operate without European auxiliaries and that Austria and Germany also reverted to the plan of the exclusion of Turkish intervention.

LONDON, July 28.

The House of Commons last evening agreed to a supplementary vote for 10,000 men for the army.

CONSTANTINOPLE, July 17.

The rumors that Arabi Pasha declared he would resist Turkish forces are untrue. He has renewed his assurance of fidelity to the Sultan. At a meeting of the Conference yesterday Lord Dufferin, British ambassador, renewed his proposal for the issue of a proclamation declaring Arabi Pasha a rebel. Said Pasha, Turkish Prime Minister, thought such proclamation should not be issued until Turkish troops landed in Egypt.

LONDON, July 28.

In the House of Commons, to-day, Gladstone, amidst cheers, read an extract from instructions forwarded to Lord Dufferin, British ambassador at Constantinople, after the Cabinet meeting yesterday. It stated that England was glad of the co-operation of any power, but called upon the Sultan to state the date for the dispatch of troops, and before such date to issue a proclamation upholding Tewfik, the Khedive, and denouncing Arabi Pasha as a rebel. Gladstone said communications were still passing with Italy regarding her co-operation, and added that communications had just been received from Musurus Pasha, Turkish ambassador at London, announcing the Sultan would send troops immediately. The communication from Musurus Pasha contained

no reference to the proclamation denouncing Arabi as a rebel.

AMERICANS APPRECIATED.

ALEXANDRIA, July 28.

Lord Charles Bessford states that without the assistance of American marines he would have been unable to have discharged the numerous duties of suppressing fires and preventing looting, burying the dead and clearing the streets.

The Phoenix Park Murder.

DUBLIN, July 27.

From information gleaned here it appears that Westgate, or O'Brien, the man arrested in Venezuela on his own confession that he was implicated in the Phoenix Park murders, is a Scotchman. On the day of the tragedy he sailed from Northwall for Swansea at 7 P. M., or ten minutes before the tragedy occurred. Consequently, he could not be one of the assassins. Some of his friends were with him at Northwall an hour before the vessel sailed. The authorities here are confident that Westgate is innocent, though detectives will have to be sent to bring him to Ireland in order to satisfy public feeling.

Attempted Assassination.

DUBLIN, July 27.

A desperate attempt was made to-day to assassinate the Recorder of Dublin at the Green-street Court House. A tutor named Fitzpatrick was non-suited as plaintiff on a civil bill. He fired at the Recorder with a revolver in open court, but fortunately was seized by the defendant and a policeman.

WESTERN.

The Sequel to the Sachs Wife Shooting. SAN FRANCISCO, July 28.

The Chronicle this morning publishes a scandal in connection with the effect that the trouble was caused by Samuel C. Cook, of Los Angeles, who, in revenge for a refusal of Sachs to loan him money to pay a gambling debt, spread stories of his own intimacy with Mrs. Sachs. This led to a preliminary row between Sachs and his wife, in which the husband beat his wife, then went to Cook's lodgings and, covering him with a revolver, unmercifully thrashed him, and subsequently shot Mrs. Sachs as heretofore reported.

MISCELLANEOUS.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable tonic and restorative in cases of General Debility, Nervous Depression, Exhausted Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a useful and reliable remedy. It stimulates the digestion, sharpens the appetite, invigorates and builds up the entire system, and causes a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from lassitude and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak and refuses other nourishment, the Extract will prove an excellent substitute for food. It soothes the system and the appetite and offsets the taste.

DELICATE FEMALES, who suffer from the weakness of their sex, will derive lasting relief from its use. It invigorates the system, purifies the blood, stimulates the appetite, and restores the system.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are inclined to Consumption—will find this preparation exactly suited to their needs. It is a specific for the Cough and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the digestion of fat-producing foods, and its effect is invariably to give fullness and roundness to the female form, and robustness to the masculine frame.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients.

The genuine preparation bears on the label a fine engraved likeness of Baron von Liebig, and a fac-simile of his signature, as well as that of A. T. GILLES & CO., Baltimore, Md., Sole Agents for America.

The Bridegroom Up a Tree.

In a breach of promise suit in Montana, the plaintiff said that the defendant had failed to appear at the time agreed upon for the ceremony. He afterward came to the house, but she, being angry, set the dogs on him. The Judge asked the defendant why he had not appeared. "Well, Judge," was the reply, "I was tired by a bear all day and night, and I couldn't possibly get away in time." The case was dismissed, and in a few minutes the contestants were husband and wife.

A Valuable Dog.

The express train from the East last evening brought a very beautiful specimen of the St. Charles spaniel. The dog is the property of Thomas Corbett, a gentleman from Bradford, Pa., who has gone to Quincy to set up some new machinery for the Eureka Plumas mine. The expressage on the dog was \$35. He is thoroughly trained and one of the finest specimens of bird dogs ever brought to this coast. Mr. Corbett values his pet at \$500. Call at the Arcade Hotel and see him.

BY GEORGE.

How the Newspaper Men Stick Together at the Capital.

A Washington editor thinks he will ring in a little free advertising in Nevada by sending out marked copies of his paper with a glowing notice of Congressman Cassidy. He says: "As a rule journalists make some of the best law-makers, as can be demonstrated in every legislative body where the craft is represented, by their practical views of the people's wants, their pointed speeches and useful bills. The present Congress is no exception. Several well-known, hard-working, observant, active, but practical members might be mentioned, but for the present take as a proof of the foregoing the career of Hon. George W. Cassidy, Representative at large from Nevada, editor and proprietor of the Eureka (daily and weekly) Sentinel, who for the past 25 years has been in the fields of journalism. He is yet a young man, only 46; was elected to the Nevada State Senate (1872) for four years, when only 36, re-elected in 1876, and chosen President of that body in 1879. He is now serving his first term in Congress, but has already exhibited ability of an unusually high order as a legislator, in the committee-room and on the floor, and oratorical qualities far above the average of the House. The sum of his usefulness cannot be estimated, both to his own section and to the entire Union. Of quick perception, rapid, clear, *ex tempore* expression, earnest, positive, convincing in debate, an honest, industrious committee-man, popular and zealous in his departmental work for his constituents—all in all, he is such a man who, once in Congress, proving so useful, should be kept there." He says he has done good work against the Chinese, the Mormons, and tried to against the land grant railroads, but his bill to take away their land sleeps in the committee-room. "As a member of the Committee on District of Columbia he has made friends among the citizens of Washington by his honest efforts for the National capital. On the Committee on Mines and Mining his experience and metallurgical knowledge has gained him quite a reputation among his compeers in the committee-room."

An Easy Life.

The Laramie Boomerang man learned his trade in a Chinese printing office and tells how he used to work: The Chinese compositor cannot sit at his case as our printers do, but must walk from one case to another constantly as the characters needed cover such a large number that they cannot be put in anything like the space used in the English newspaper offices. In setting up an ordinary piece of manuscript the Chinese printer will wait up and down the room for a few minutes and then go down stairs for a line of lower case. Then he takes the elevator goes up into the third story after some caps and then goes into the woodshed for a handful of stationers. The successful Chinese compositor doesn't need to be so very intelligent, but he must be a good pedestrian. He may work and walk around over the building all day to set up a stickful, and then half the people in this country couldn't read it after all.

Carson Machine Shops.

The Carson Tribune says that 121 men are constantly employed in and about the Virginia and Truckee railway company's machine shops and works. The foundry is doing the majority of casting for the State, and the planing, tonguing and grooving machinery is now controlling that business even to supplying eastern Nevada and Salt Lake. A new and much larger planing machine is being put up; and in a short time an immense amount of work in that department will be done. There are two sets of passenger cars in course of construction for the C. & C. R. R., and two more locomotives will be added to the rolling stock of the road.

Geological Monstrosity.

Any who are interested can see by calling at the GAZETTE office, specimens of crystallized quartz recently spoken of, which carry minerals. The crystallization is perfect and the mineral is shot in in fine straight lines. Some specimens are completely filled with lines, and others only partially. Many are full of silver, others carry gold and some asbestos. They are very handsome and will, no doubt, be sought after for jewelry. Walter Schmidt has sent some east, and also Brazilian pebbles or topaz he found in the mountains west of Oreana. The specimens of quartz are found for a distance of about a dozen miles up and down the range west of Oreana and Rye Patch.

A Nice Residence.

G. W. Huffaker has his new house at his ranch nearly completed. Captain Moger has just finished the plastering and the painters are engaged in putting on the finishing touches. It is a beautiful structure, and "Uncle Huff" takes great pride in showing his friends the mansion in which he proposes to end his days.

Female Fighters.

Two of the female patients at the Asylum had a little misunderstanding after being locked in their ward last night, and one of them gave her companion a severe thrashing. The fight was conducted with such decorum that none of the attendants heard anything of it.

The Caledonia Club Picnic.

On Saturday, August 5th, will take place the seventh annual picnic of the Caledonia Club. It is intended that the coming picnic shall be up to the mark of the club. There will be no decrease in either the number or the value of the prizes offered. For every sport and game there will be a desirable and valuable prize, one well worth striving for. For shooting by the military \$150 in gold coin is offered, and the winners in the games will receive useful and beautiful articles in solid gold and silver. Much silverware is offered in the way of prizes. Cars' band will furnish music on the occasion, and dancers will have an opportunity to indulge in their favorite amusement. The train will leave Reno for Carson at 7 o'clock A. M. and arrive at the grounds about 8:30 o'clock. This picnic will be the best given this year and quite likely the last one, so take it in and have a good time.

Pay for Planting Trees.

Some time ago B. F. Leete presented to the Board of County Commissioners a bill for \$160 to pay for planting 16 acres of forest trees under a law of 1873 which gives a bounty of \$10 an acre. R. H. Lindsay appeared before Judge Young today for Mr. Leete and G. A. Rankin for the county, and argued a demurrer in a suit Mr. Leete brought after the Board refused to pay the bill. Rankin held that the law had not been complied with, because he says a plat must be filed inside of two years, which had not been done. The Judge's decision is reserved. The law is a very unwise one and should be repealed, as no county in the State can afford to pay such a bounty.

Dog-gon Badley Mixed.

A dog suit was argued to-day before Judge Young, which resulted from the circus folks trying to realize a dog while here. It appears that Bob Branton, the sheep man, had farmed out a very fine animal to B. F. Wright on the shares. When the circus came along Branton gave the dog to Sam Wells, the trainer, who took her to Carson and Virginia. On their return here Wright got the dog away from the circus man and kept her. Now Branton claims the dog and replevined her from Wright. The Judge decided that as Branton had given the dog away he could not get her again by replevin without bringing the suit in the name of the man to whom he had given her. D. Allen and Wm. Boardman argued the case.

Everybody Buys 'Em.

Lovers of horse-flesh and genuine sport will read the following announcement with pleasure:

On Saturday next, July 29th, there will be two races at the Agricultural Fair grounds, the terms and conditions of which have been announced as follows:

First—Trotting, mile heats, three in five to harness; \$10 a corner and gate money added. Entries: R. Geise names b. g. Morgan, Smith Hill names b. g. Tricksey, Alf Hill names s. g. Selim.

Second—Running, half mile and repeat, \$25 a corner. Entries: Sam Hooper names s. g. Ernest, J. Bradley names b. g. Ballot-Box, G. Richardson names.

This should secure a large turn-out, as the admission fee is placed at the modest rate of 25 cents, ladies free.

The Change at Wadsworth.

The new Wadsworth shops will be situated on the north side of the track on the west side of the river. The ground is dry and very pleasantly placed. Mr. Free's office and the freight house will remain where they are for the present. The new grounds have been deeded by Mr. Herman to the company. The ground plans for the shops and track, show them to be quite commodious. The engine house will be the regulation round house with turn table in the centre, which are built all along the road. The machine shop will be a parallelogram.

Broke Away at Last.

One of the first settlers in Washoe city was Mr. Porter, a blacksmith, who plied his trade with energy all through the palmy days of the old town's glory. When the timber interests began to decay and people left in flocks he still held on, and now for years he has seen them drop off one by one. After being left almost alone for a year or two he has got tired, and is looking for a new home. He talks of going to Surprise Valley.

Horseback Riding.

Horseback riding is becoming quite fashionable in Reno. Several ladies saddle up their horses every evening now and show their skill. Quite a party of young ladies between the ages of 10 and 14 can be seen almost every evening on the principal streets mounted on their ponies. It is said the little folks intend to ride fair week if the Trustees of the Society will allow them to do so. It would be quite a feature.

Home Improvement.

A. A. Longley has about completed an addition to his farm house. The building is 34 feet square, two stories high, and contains 11 rooms. Captain Moger has been doing the plastering and now the painters are doing their work. Mr. Longley has one of the finest country houses in the State.

Something About Tornadoes.

The recent examination in the Signal Service office of 600 tornadoes recorded during the past 87 years shows that these destructive storms occur most frequently in June. They are more frequent in April than in July, and in May and September than in August. The records also show that while tornadoes occur generally between 5 and 6 P. M., no hour of the day is entirely free from them. Each storm-cloud travels from 12 to 60 miles per hour, the average of the path of destruction being 1,085 feet. The wind within the vortex sometimes reaches a velocity of 800 miles an hour, the average velocity being 393 miles. Tornadoes always move eastward, but they may be swayed from side to side during their progress.

Coming to the Fair.

Nate W. Roff, Secretary of the Agricultural Society, received a letter from W. H. Dickson, of the law firm of Varian & Dickson, Salt Lake, this morning informing him that he had made inquiries and was informed that several stables of Utah trotters and runners would be here during Fair week. This substantiates what Mr. Green told a GAZETTE reporter a day or two ago. If our people take the interest in the Fair that is now manifested we are sure of success.

A Noted Character.

A few days ago the notorious Johnny Davis, an old Carsonite, and one of the biggest thieves in America was taken in by the Bodie authorities for burglary and the chances are 10 to 1 that he will be given quarters at San Quentin for a while. Davis has occupied nearly every jail in the United States and is not a stranger in penitentiary circles. When he is under a lock and key he is better off.

War on Idlers.

The officers have determined to rid the town of the idle men who fill the worst corners of the town. To-day Judge Young had several before him. Jack Landy was found guilty of vagrancy and will be sentenced to-morrow unless he goes to work in the meantime. Wm. Clark, alias Sacramento Bill, who has been six times in the penitentiary, Alf. Mans and George Amos were also arrested.
